## Tools that Unlock a Reader's Potential

Research has shown that using audiobooks can accelerate literacy development in students with specific learning disabilities, such as dyslexia.

Audiobooks allow students to hear texts as they read, which boosts reading comprehension and improves fluency, vocabulary, and decoding skills. They help unlock students' potential by improving their reading skills, helping them master grade-level content, and creating independent readers for a lifetime of learning.

Learning Ally, a nonprofit organization, offers an audiobook library of more than 80,000 high-quality titles and resources across all grade levels and subject areas including popular fiction, classic literature, textbooks, test prep, and study aids.

Help your students discover for themselves the same success that other struggling readers have found through Learning Ally's audiobooks and learning tools.

*"The audiobooks from Learning Ally have opened up new worlds for some of our children. Children who have never been able to read before are discovering new ways to learn."*

—MARLENE BIAVA, Special Education Teacher

### Order your Quick Start Package today!

This special offer is available only until March 31, 2017.

Call 800.221.1098 to speak to one of our education specialists directly.

OR

fill out the information form [HERE](#) and one of our education specialists will call you.

#### NUMBERS TO KNOW

80%

of students

with learning disabilities are dyslexic and have significant, ongoing difficulties with learning to read.

1/2

of these students

perform three or more grade levels below their peers on key skills.

41%

of students

with learning disabilities like dyslexia will not graduate from high school.

#### BUT IT DOESN'T HAVE TO BE THAT WAY

Providing the right tools for your struggling readers can change their lives for the better. Learning Ally's audiobooks can help.
