(34.203.26.113)
<https://www.learningally.org/>
(34.203.26.113)
[https://services.learningally.org /](https://services.learningally.org/)
(34.234.188.86)

* Because our Content Distribution Network uses regional servers to balance their load, and improve download speeds, the IP addresses for these servers will vary based upon your geographical region.

Performing a nslookup to these web addresses at your location will provide you the correct IP addresses for your region.

For the Barracuda Web Application Firewall:

Add domain learningally.org or URL pattern *.learningally.org

For Zscaler proxy:

Add the following to the PAC file:
if(dnsDomains(host, "rfgd.hs.llnwd.net")) Return "DIRECT";

PORTS

Port 443
Port 80
